

## Addendum to Visitor Report

The cemetery is several hundred yards to the west of the Christ Church compound in Naqvi Park, Aligarh. It measures some 6400 square yards. The earliest tombstone dates from 1803. Many of the larger tombs are in disrepair, and lack any inscriptions. Of three known Kinloch burials recorded in the IOR returns, only one tombstone was found: Walter Augustus Kinloch, d 1905 (see photo).

I have provided to the Rev. Luke an index to over 2200 BMD records for Aligarh, compiled from the Findmypast.com website.
